

Kvar Connect

WE SPECIALISE IN SAVING YOU MONEY

APPLICATION FOR POWER FACTOR CORRECTION QUOTATION

Where electricity is based on the KVA charging rate, Power Factor Correction can be applied and results in significant savings. By analysing your energy usage history we are able to provide a quotation for the supply and installation of Power Factor Correction equipment and show your estimated costs, savings and payback period.

Please fill in the details below and fax to Kvar Connect on (03) 5674 2166 so we can make the calculations and provide you with a quotation.

Business Name: _____

Address: _____

Suburb: _____ State: _____ Post code: _____

Electricity Retailer: _____ Distributor/Wholesaler: _____

Contract Period: _____ End Date: _____

This letter is to confirm Kvar Connect is authorised to request information regarding our electricity supply, including:

Usage & Rates Maximum Demand Power Factor Peak Demand

This information will be treated as confidential. It will be used to calculate and provide a quotation for the supply and installation of Power Factor Correction equipment.

Yours sincerely
